Silayan Filipina National Organization is a national non-profit organization that empowers women and collaborates with communities through personal, professional and cultural enrichment.

Each year Silayan Filipina hosts a benefit event to raise funds for a worthy charity. Recognizing the significant role that music plays in communication, cultural awareness, well-being and social "storytelling", it is important to propagate and sustain music within our children. Music breaks the boundaries of race, status and religion, and is a powerful instrument that reflects the mood of the world. This year's proceeds for Silayan Filipina's Benefit Concert will be donated to FASO, Filipino American Symphony Orchestra and music programs and workshops for children, continuing to promote and foster music in the community.

Silayan Filipina's highly anticipated Benefit Concert, "Music. The Universal Language.", will be held on Saturday, March 24, 2018 at the Bahia Resort Hotel. The event will include dinner, the concert with Michael Paulo and all-night dancing. Please visit <http://www.silayanfilipina.com/benefit2018> for tickets and details. This is the one event not to miss!
